Hey Vanessa,

Please find a public comment emailed to me below. This is from Kenton Brown, property owner of the second case on the agenda this evening: 1208 W Malibu Dr.

Honorable Hearing Officer:

I am writing this e-mail from Banner Desert Medical Center where I am a patient.
I had planned to the hearing today, October 5th, but I cannot.
I am requesting a 30-day continuance, so that I can bring my property at 1208 W. Malibu Drive into Tempe City Code compliance. There are several reasons for this request.
First, I have had many health problems, and I have been unable to spend any time out in the heat this summer. I have a history of hospitalizations related to this issue in the past.
I have also requested assistance from Tempe Neighbors Helping Neighbors, which I expect to receive.
I am certain that I will be able to get up to code within a month.
Thanks for the consideration.

Part 2: (I was interrupted by medical staff here while composing my last e-mail.)
I am acutely aware that my property must meet Tempe City Code. That some violations have not been corrected is not a matter of carelessness, laziness, or defiance. I intend to meet those requirements, now that I can handle the weather (once I get back home).
The point that I'm trying to make is, that now that the autumn daytime weather is much cooler, along with some outside assistance, I will be clear to get a lot accomplished regarding property maintenance without serious risk to my health.
Once again, I am asking for help with these efforts by continuing/extending this case.
Thank-you again for your consideration.

~Ken
