

CITY OF TEMPE DEVELOPMENT REVIEW COMMISSION

Meeting Date: 03/28/2023
Agenda Item: 7

REVISED

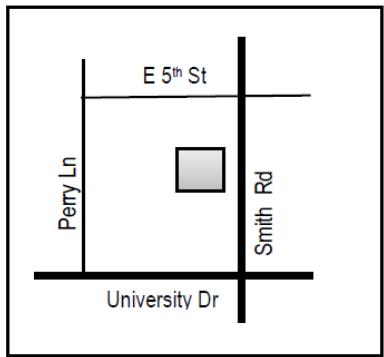

ACTION: Review for compliance with the conditions of approval for a Use Permit to allow vehicle rentals within the General Industrial District for UCARS within General Industrial District, located at 640 South Smith Road. The applicant is Guidant Law PLC.

FISCAL IMPACT: N/A

RECOMMENDATION: None

BACKGROUND INFORMATION: On December 13th, 2022, the Development Review Commission granted UCARS (PL220314) the approval of a Use Permit to allow vehicle rentals within General Industrial District. Since there were concerns from the public regarding the use, the conditions of approval for the Use Permit stipulated that UCARS shall return to the Development Review Commission for review of compliance on March 28th, 2023. The review includes the following:

Review for compliance with the conditions of approval for ZUP220066, a Use Permit to allow vehicle rentals within General Industrial District.

Property Owner	KT 777 LLC
Applicant	Guidant Law PLC
Zoning District	GID
Site Area	35,196 s.f.
Building Area	9,405 s.f.
Lot Coverage	26.7%
Building Setbacks	25' front, 20' parking (front), 0' sides, 0' rear min. required
Vehicle Parking	36 spaces (31 min. required)
Hours of Operation	9 a.m. to 7 p.m., Monday - Friday

COMMENTS

UCars is located on the west side of Smith Road, north of University Drive and south of Fifth Street. UCars owns a fleet of vehicles which it leases to rideshare drivers for companies such as Uber and Lyft. Wrench Doc Auto Repair & Body Shop also services vehicles on-site. In the past year, the businesses have received four code violations, three of which have been closed. The current, active code violation was initially opened for operating without a Use Permit. Although the Use Permit was approved by the Development Review Commission on December 13th, 2022, this violation is still open because the businesses are not conforming with the conditions of approval set forth.

Complaints have been received by Code Compliance, the Police Department, Fire Department, and Engineering & Transportation from adjacent business owners regarding a high volume of inoperable vehicles parked along Smith Road and 5th Street. Violations for parking in fire lanes and driveways have also been reported. Since the December 13th, 2022, hearing, City staff has received several complaints from adjacent businesses, expressing their concern with UCars' inability to comply with the conditions.

PUBLIC INPUT

Since the December 13th, 2022, Development Review Commission meeting, City staff has received regular email updates from neighboring business owners with pictures of UCars' inventory parked on the street. See Pages 7-19 9-16 of *Development Project File*.

POLICE INPUT

The Police Department has reported 25 calls from complainants. See Page 3 5 of *Development Project File*.

CODE COMPLIANCE INPUT

The Code Compliance Division has conducted 10 inspections on site since December 13th, 2022 and has received one complaint from the public. Since UCars is in violation of conditions #4 and #5 of the Use Permit, the CM221789 record remains open. On January 31st, 2023, the first citation was issued. Staff conducted site visits after the citation was issued and observed repeated violations. See Pages 4-5 6-7 of *Development Project File*.

ENGINEERING & TRANSPORTATION INPUT

In response to requests from several property and business owners in the area, the Engineering & Transportation Department prepared and distributed a hybrid door-to-door/online petition to properties and businesses on Smith Road from 3rd Street to University Drive and on 5th Street from Perry Lane to Rockford Drive. The petition proposed the installation of permanent signage on the previously-mentioned roadway segments that would prohibit overnight parking from 7:00 PM to 5:00 AM, Monday through Friday.

Of the 31 properties within the immediate area of the proposed signage, 24, or 77.4%, were recorded as being in support of the proposal and therefore sufficient support for signage installation was received. The Engineering & Transportation Department will be moving forward with the manufacture and installation of the new signage in the coming weeks. Additionally, the current design of the Smith Road Streetscapes project still includes the future installation of signage that will prohibit parking along Smith Road at all times, replacing the signage installed on Smith Road under the scope of the above-mentioned petition. See Page 6 8 of *Development Project File*.

USE PERMIT

The proposed use requires a Use Permit to allow vehicle rentals within GID zoning district.

Section 6-308(E) Approval criteria for Use Permit (*in italics*):

1. *Any significant increase in vehicular or pedestrian traffic*; the site has sufficient parking for the uses per ZDC Section 4-603. As imposed by the conditions, the business shall keep all vehicle inventory on the property and designated storage lots at all times. Therefore, there is no anticipated increase in vehicular and pedestrian traffic.
2. *Nuisance arising from the emission of odor, dust, gas, noise, vibration, smoke, heat or glare at a level exceeding that of ambient conditions*; nuisances exceeding that of the ambient conditions are not expected to arise from vehicle rentals, as the operation shall be conducted on-site during business hours.

3. Contribution to the deterioration of the neighborhood or to the downgrading of property values, which is in conflict with the goals, objectives or policies for rehabilitation, redevelopment or conservation as set forth in the city's adopted plans or General Plan; the leasing of vehicles is a permitted use within the GID zoning district, subject to a Use Permit. Therefore, the use shall not contribute to the deterioration of the neighborhood or downgrading of property values.
4. Compatibility with existing surrounding structures and uses; the use is compatible with the existing surrounding structures and uses, as adjacent businesses are also located within the GID.
5. Adequate control of disruptive behavior both inside and outside the premises which may create a nuisance to the surrounding area or general public; the business has taken action to mitigate concerns surrounding the use, such as removing vehicles from Smith Road and 5th Street. The applicant is taking preventative measures to avoid nuisances that would negatively impact the general public.

REASONS FOR APPROVAL:

Based on the information provided by the applicant, the public input received and the above analysis staff supports approval of the requested Use Permit. This request meets the required criteria and will conform to the conditions.

SHOULD AN AFFIRMATIVE ACTION BE TAKEN ON THIS REQUEST, THE FOLLOWING NUMBERED CONDITIONS OF APPROVAL SHALL APPLY, BUT MAY BE AMENDED BY THE DECISION-MAKING BODY.

CONDITION(S) OF APPROVAL: (Non-standard conditions are identified in bold)

EACH NUMBERED ITEM IS A CONDITION OF APPROVAL. THE DECISION-MAKING BODY MAY MODIFY, DELETE OR ADD TO THESE CONDITIONS.

1. The Use Permit is valid for the plans as submitted within this application. Any additions or modifications may be submitted for review during the building plan check process.
2. **Return to the Development Review Commission for review of compliance with conditions of approval on March 28th, 2023. The timing for the three-month review period to commence begins when the decision for the use permit is made. Advise Community Development staff when in full business operation.**
3. Hours of operation to end no later than 7:00 p.m. on Monday through Friday.
4. **All vehicles generated from the businesses shall be kept on-site in parking areas or other designated storage lots, at all times.**
5. **In compliance with the Zoning and Development Code, Section 4-702 (C), all front yard landscape areas and driveway entrances shall remain clear of any vehicle parking.**

CODE/ORDINANCE REQUIREMENTS:

THE BULLETED ITEMS REFER TO EXISTING CODE OR ORDINANCES THAT PLANNING STAFF OBSERVES ARE PERTINENT TO THIS CASE. THE BULLET ITEMS ARE INCLUDED TO ALERT THE DESIGN TEAM AND ASSIST IN OBTAINING A BUILDING PERMIT AND ARE NOT AN EXHAUSTIVE LIST.

USE PERMIT:

- The Use Permit is valid for UCars and may be transferable to successors in interest through an administrative review with the Community Development Director, or designee.
- The use permit approval shall be void if the use is not commenced or if an application for a building permit has not been submitted, whichever is applicable, within twelve (12) months after the use permit is granted or within the time stipulated by the decision-making body.
- The decision-making body, upon finding that the applicant has not taken corrective actions to resolve issues related to the permit/approval and that a continuation of the permit/approval is not in the interest of the public health, safety and general welfare, can revoke the permit/approval after providing written notice of its intentions to the holder of the permit.

- Specific requirements of the **Zoning and Development Code** (ZDC) are not listed as a condition of approval but will apply to any application. To avoid unnecessary review time and reduce the potential for multiple plan check submittals, become familiar with the ZDC. Access the ZDC through <http://www.tempe.gov/zoning> or purchase from Development Services.
- Any intensification or expansion of use shall require a new Use Permit.
- All required permits and clearances shall be obtained from the Audit and Licensing Division of the City of Tempe prior to the Use Permit becoming effective.
- All required Federal, State, County, and Municipal permits, licenses, and clearances shall be obtained, or the Use Permit is void.

HISTORY & FACTS:

May 4, 2022	The businesses received a code violation (CM220754) for vehicles obstructing the sidewalk. The violation was closed on May 4, 2022.
June 9, 2022	The businesses received a parking standard violation (CM220993).
September 8, 2022	CM220993 was closed.
September 14, 2022	The businesses received a code violation (CM221616) for storing damaged vehicles on Smith Road and 5 th Street.
September 15, 2022	CM221616 was closed.
October 12, 2022	A code violation (CM221789) was received for operating a vehicle rental business without a Use Permit.
November 7, 2022	A Use Permit application was filed (PL220314).
December 6, 2022	Engineering & Transportation installed temporary no parking signs.
December 13, 2022	The Development Review Commission approved the Use Permit to allow vehicle rentals within the GID for UCars, subject to the conditions of approval.
January 18, 2023	Engineering & Transportation installed additional temporary no parking signs.
January 31, 2023	Code Compliance staff visited the site and observed violations of conditions #4 and #5 of the Use Permit, and a citation was issued.
February 16, 2023- March 3, 2023	Engineering & Transportation collected online and in-person signatures on the petition.

DRC Commission,
Zoning Department
& Code Enforcement
Tempe City Hall Building
31 East 5th Street
Tempe, Arizona 85251

Dear DRC Chairman and Members,
Zoning Department, and Code Enforcement:

Thank you for your patience over the past few months as UCars has worked diligently to reduce its business impact on its neighborhood while simultaneously securing a permanent solution that will ensure permanent compliance with its Use Permit conditions going forward.

Overview

Over the past few months UCars has secured and rented several offsite parking lots that have allowed UCars to significantly reduce the number of cars on Smith Road.

During that same time, UCars entered into a long-term lease of a property that will serve as its primary, permanent leasing and vehicle storage location. The commencement of that lease is estimated to be April 1, 2023. The reason commencement cannot be sooner is because that property is currently in use by another user, so that user needs to vacate the property first.

Be assured that both UCars and the Landlord are working diligently to accommodate any potential accelerated exit by the current user so UCars can take occupancy as soon as possible. If any early commencement/occupancy is possible, UCars will immediately begin removing cars from Smith Road and relocating them permanently to the new location.

Upon commencement, and UCars taking occupancy of the property, UCars will need a short period, approximately 30 days, to install furniture, fixtures, and equipment, and other tenant improvement specific to its business. This will take place during the month of April, with the permanent relocation of the leasing office planned to start no later than May 1, 2023.

If UCars can move faster than May 1, it certainly will; however, UCars, like every business, is somewhat beholden to the current logistics of equipment inventory and delivery schedules.

Goals

During the month of April:

Upon Commencement of the new property lease, UCars will relocate all non-employee vehicles to the new property. Because leasing operations will continue to be run from the Smith Road location

during all or most of April, UCars will have about 20-25 employee vehicles to accommodate during the day, during the month of April.

There should not be any UCars vehicles on Smith Road after hours any later than April 7, 2023, due to the cars being relocated during the first week of April following commencement of the new property lease (UCars will be allowed to access the storage lot upon commencement).

During the Month of May:

Once the tenant improvement/equipment installations and office are completed at the new property (Anticipated by May 1, 2023), the Leasing operation will permanently relocate to the new property, leaving approximately 8-10 employees at the Smith Road location. Thereafter, the Smith Road property will be used as an auto maintenance and service shop.

Beginning May 1, 2023, the employees will begin parking on site or in front of the UCars property during the day. Therefore, there should be no UCars cars, employee's cars or otherwise, parked on Smith Road after hours. Tow truck drivers will be instructed to drop vehicles onsite in the driveways if they need to drop off a vehicle for service after business hours.

Request for modification of Condition # 4

Currently, UCars is prohibited from parking on Smith Road, even in front of its own business address. This Condition treats UCars differently than any other business in its neighborhood by imposing a more restrictive standard on UCars. This more restrictive standard lacks legal basis and creates disparity both in the City's treatment of neighborhood users and in code enforcement.

UCars requests that Condition 4 be modified to read as follows:

4. All vehicles generated from the businesses shall be kept at all times onsite in parking areas or in front of the business property only, if parked on Smith Road.

Ongoing need for Use Permit

Beginning May 1, 2023, the leasing operation will be moved from the Smith Road location to a new permanent location. Thereafter the Smith Road location will be operated as a vehicle maintenance and service shop. Nevertheless, if a customer turns in a vehicle needing service in exchange for a recently serviced vehicle, that exchange will require the execution of a new lease agreement which is allowed pursuant to the existing Use Permit.

Accordingly, it is important that the current Use Permit continue to remain in place so that UCars may achieve and maintain compliance with all City codes, ordinances, and conditions.

Best regards,

//**Eric Faas//**

All,

No doubt the driver of that delivery truck in the last picture had to leave his truck empty in the middle of the road to communicate with someone in person because there is literally NO WHERE for him to safely pull off the side anywhere close to his destination thanks to the jerks at Ucars. They are also in blatant violation of at least 2 conditions of their Zoning Use Permit ZUP220066 issued on December 13th.

That being said, I just filed a commercial code complaint with Char at Development Services, work order #13116657.

Feel free to contact us if you have any questions, thank you!

Happy New Year all

Just want to share some pictures that I have taken today.
There has been no improvements here, no enforcement, no law and order on the streets of Smith and 5th.

Does anyone have any suggestions? Can we chalk tires? Can we start towing these cars?
What is the hold up? Should I call Gary Harper at 3 on your side?

Thank You!

We noticed a similar trend. When my employee came it at 08:00 he didn't count but said it was a lower number than when he left to grab lunch. When he counted at around 14:45, number was at 49.

Feel free to contact us if you have any questions, thank you!

Subject: RE: UCars Rideshare Abuse of Public Roadway

Hello Tyler,

It's been a couple of months now since we last corresponded about the UCars parking issue on Smith Road. It's my understanding there was a hearing in December and I've observed temporary signs coming and going on sections of Smith and 5th Street, but the problem remains unabated while the hazards and eyesore remain.

I wonder if you can provide an update on what property owners on Smith, like myself, can expect in the near future.

Thank you,

Mike Bradley | CEO

Good morning Mike,

I wanted to write to you to offer some (hopefully) good news. The first batch of temporary no parking signs are scheduled to be placed today. Hopefully this begins to help address your concerns while we pursue a more lasting solutions, but in the meantime, if we find the temporary signage isn't performing they way we intend it to, we have the ability to adjust them to make them hopefully more effective in the interim period.

This message needs your attention

- You've never replied to this person.

All,

I looked into when Tempe's Development Review Commission will be reviewing UCar's compliance of the conditions of their business license. Although there is no agenda written as of yet, I was advised this meeting is scheduled for 3/28/23. Below is the link to the calendar, the agenda should be published a week or two ahead of time. Please plan to appear in person to support. If you wish to speak you will need to fill out a form when you arrive (you will likely have a time limit of 3 minutes per my experience with other municipalities). If you cannot make it, please submit an online comment to be read into the record.

Here is the link to Tempe's calendar of meetings:

<https://www.tempe.gov/community/calendar-of-events-meetings-curm-3-cury-2023>

Also, please share this amongst your neighbors. If each one of us shares this with 1-2 neighbors and asks for that neighbor to share as well, we should have enough ripple effect to be able to get the word out beyond the "required by law" 600' perimeter of their address. This perimeter basically includes Smith from University to 5th St and as we all know, their antics extend far past that distance. My goal is for the Development Review Commission to get enough feedback that they will need to take some sort of immediate action against UCars.

Feel free to contact us if you have any questions, thank you!
