By submitting a bid, Bidder agrees that it has examined the site, specifications, plans, and Contract, and accepts, without recourse, all site conditions, the proposed Contract, and all exhibits and addenda thereto.

1.3 START OF WORK / TERM OF CONTRACT

2.2 UNIFORM STANDARD SPECIFICATIONS

All work done under this Contract shall be accomplished in accordance with the Maricopa Association of Governments Uniform Standard Specifications and Details for Public Works Construction – latest edition (“MAG Specifications”) and the City of Tempe Supplement to the MAG Uniform Standard Details and Specifications for Public Works Construction – 2014 (“City of Tempe Supplement”), except as modified in the Contract.

2.9 CONTRACT COMPLETION DATE

The Contract completion date established by reference to the Notice to Proceed date is for completion of all or specified portions of the work. This includes items of work to be completed under an owner allowance or as part of a contingency item. The stated Contract completion date will take into account anticipated or actual weather conditions that are not unusually severe for the area and time of year. This date may be expressed as a calendar date or as a number of calendar days after the Notice to Proceed date.

If time extensions are issued by City, the revised Contract completion date will be referred to as the adjusted Contract completion date.

2.10 FINAL INSPECTION

Contractor is responsible for complying with the specifications and is hereby forewarned that final approval of any work will not be given until the entire project is completed and accepted by City. Prior to final inspection on any City facilities requiring a building permit, Contractor must call for final inspection from the Community Development Department and Public Works Department of City. The final inspection must be completed prior to final acceptance and payment.

2.11 FINAL ACCEPTANCE & GUARANTEE

Final acceptance shall mean a written final acceptance of the work. City Engineer shall make the final acceptance promptly after the work has been inspected and found to be completed in accordance with the Contract. The work performed under this Contract shall be guaranteed for a period of one (1) year from the date of final acceptance.

2.12 AS-BUILT DRAWINGS

Contractor shall provide and maintain accurate field data on a redlined set of Contract drawings, which are to be kept current and submitted as complete at the conclusion of the construction. These record drawings will be used as documentation for progress payments, and upon project completion, for the preparation of record drawings by the architect/engineer. The submittal shall clearly indicate the specific area of the Contract for which the submittal is made. The additional copies received will be returned to Contractor's representative at the job site. City construction project manager's notations of the action taken will be noted on one (1) of these returned copies.

The above drawings, lists, prints, samples, and other data shall become a part of the Contract and a copy of the same shall be kept with the job site Contract, and the fabrications furnished shall be in conformance with the same.

City construction project manager's review of the above drawings, lists, prints, specifications, samples, or other data shall in no way release Contractor from its responsibility for the proper fulfillment of the requirements of this Contract, nor for fulfilling the purpose of the installation, nor from its liability to replace the same should it prove defective or fail to meet the specified requirements.

2.14 QUALITY CONTROL

All material shall be new and of the specified quality and equal to the accepted samples, if samples have been submitted. At the option of City construction project manager, material to be supplied under this Contract will be tested and/or inspected either at its place of origin or at the site of the work. Contractor shall give City construction project manager written notification well in advance of actual readiness of material to be tested and/or inspected at point of origin. Satisfactory tests and inspections at the point of origin shall not be construed as a final acceptance of the material, nor shall it preclude retesting or reinspection at the site of the work.

2.15 EXCESS MATERIALS

Excess or unsuitable material, broken asphaltic concrete, and broken Portland cement concrete shall be disposed of by Contractor. Contractor shall, prior to commencement of the work, submit a letter to City Engineer stating the location of disposal site(s) for all excess or unsuitable material and certifying that it has obtained the property owner's permission for the disposal of all surplus material.

In addition, certain items requiring temporary removal and reinstallation such as mailbox stands, signposts, survey monument frames and covers, shall be included in this category.

2.17 PROTECTION OF FINISHED OR PARTIALLY FINISHED WORK

Contractor shall properly guard and protect all finished or partially finished work and shall be responsible for the same until that phase is completed and accepted by City.

In the event a lot corner will be disturbed, Contractor shall notify affected property owner(s) and obtain consent prior to any construction. Any lot corners disturbed or lost due to Contractor's negligence shall be replaced at Contractor's sole expense.

2.19 HINDRANCES AND DELAYS

Except as provided herein, no charge shall be made by Contractor for hindrances or delays from any cause during the progress of any portion of the work set forth in this Contract; however, delays due to no fault or neglect of Contractor may entitle Contractor to a time extension sufficient to compensate for the delays. The amount of the time extension, if any, shall be determined by City Engineer provided Contractor gives City Engineer immediate notice in writing of the cause of such delay.

The parties agree to negotiate in good faith for the recovery of damages related to expenses incurred by Contractor for a delay for which City is solely responsible that is unreasonable under the circumstances, and that was not within the contemplation of the parties to the Contract at the time the Contract was entered into.

2.19.1 Unless specifically provided for herein, the maximum compensation for an unreasonable or unforeseen delay shall not exceed the daily amount specified for liquidated damages in MAG Specification 108.9, as based on the original Contract amount.

2.19.2 This section shall not be construed to void any provisions of this Contract, which require notice of delays, or which provide for alternative dispute resolution, other procedures for settlement, or which provide for liquidated damages.

However, if the parties cannot reach agreement for the recovery of damages as set forth herein, the determination of City shall be final.

2.20 SUBSIDIARY WORK

The costs associated with any extra work as authorized by City must be approved prior to the start of work. The final costs for additional work shall also include all

Each bond shall be in accordance with Arizona Revised Statutes (A.R.S.) § 34-201, *et seq.*, as amended from time to time.

Arizona law provides that the bonds shall be executed solely by a bonding company, liability insurance carrier, or excess insurance carrier that holds a certificate of authority to transact surety business in Arizona, issued by the director of the department of insurance pursuant to A.R.S. title 20, chapter 2, article 1, as amended from time to time. 3.2.3.1 Commercial General Liability and Automobile Liability Coverage:

City, its officers, officials, employees, agents, and volunteers are to be covered as additional insureds with respect to: liability arising out of activities performed by or on behalf of Contractor including the insured's general supervision of Contractor; products and completed operations of Contractor; premises owned, occupied, or used by Contractor; or automobiles owned, leased, hired, or borrowed by Contractor. The coverage shall contain no special limitations on the scope of protection afforded to City, its officers, officials, employees, agents, or volunteers, for work related to Contractors', employees', agents', subcontractors', or sub-subcontractors' activities.

Contractor's insurance coverage shall be primary with respect to City, its officers, officials, employees, agents, and volunteers. 3.2.3.2 Workers' Compensation and Employer's Liability Coverage

The insurer shall agree to waive all rights of subrogation against City, its officers, officials, employees, agents, and volunteers for losses arising from work performed by Contractor for City.

3.2.3.3 Health Insurance Requirements

All Contractors who enter into a contract in excess of \$30,000 with City must certify that Contractors have, and all of their subcontractors will have, health insurance for all project employees. Health insurance must be offered to eligible dependents of all such employees. An affidavit must be signed in the form included herein (Exhibit 7.10). Major subcontractors are defined as entities doing work in excess of \$30,000 as determined at the start of each project.

All required health insurance must be maintained during the entire time of the Contract with the City.

Health insurance is required for all Contractor and major subcontractor employees who work more than 120 calendar days in any calendar year. A “workday” consists of any time within a 24-hour period, regardless of the number of hours that the individual is paid. At this time, health insurance is not required for temporary employees or students working part-time who are enrolled in a recognized educational institution.

The health insurance requirements shall apply to all employees directly involved with this City project including support and administrative personnel.

All complaints concerning violations of the health insurance requirements shall be filed, in writing, with the Public Works Department, within 30 calendar days from discovery of the violation. An administrative hearing will be held before the Public Works Director, and a written decision of findings will be provided to the parties to the hearing within 14 calendar days thereafter. Appeal from the decision of the Public Works Director may be made within 14 calendar days of the date of the decision by filing a notice of appeal in writing with the Public Works Department. If an appeal is timely filed, an administrative hearing will be held before an administrative hearing officer appointed by the City Manager. The decision of the administrative hearing officer shall be final.

In the event of a finding of violation of the insurance provisions, the company in violation of the provision shall be barred from bidding on, or entering into, any Public Works contract with City for a period of three (3) years from the execution of the Contract.

All Contractors subject to the health insurance requirements shall post, in English and Spanish, notice of the health insurance requirements at its office and at the job site.

3.2.3.4 All Coverages

Each insurance policy required by this Contract shall be endorsed to state that the coverage shall not be suspended, voided, and/or canceled by either party, reduced in coverage or in limits, except after 30 calendar days’ prior written notice by certified mail, return receipt requested, has been given to City.

3.2.4 Other Insurance Requirements

Contractor shall:

- 3.2.4.1 Immediately after notice of Contract award, and before final Contract execution, furnish City with certificates of insurance, in form and with insurers acceptable to City, which shall clearly evidence all insurance required in this Contract and provide that such insurance shall not be canceled, allowed to expire, or be materially reduced in coverage except on 30 calendar days' prior written notice by certified mail to City, and in accord with stated insurance requirements of this bid solicitation. MAG Specification 103.6 is fully incorporated into this Contract, except to the extent it conflicts with the limits set forth in this Contract. The insurance policies required by MAG Specification 103.6 shall additionally provide full coverage of indemnity to City, including an increase in the minimum limits to \$2,000,000 combined single limit coverage for General Liability. Prior to execution of the Contract, Contractor shall furnish City with a Certificate of Insurance as evidence that policies providing the required coverages, conditions, and limits are in full force and effect. Such certificates shall identify the project and shall provide for not less than 30 calendar days' advance written notice to City, by certified mail, of cancellation or termination. Any cancellation clause shall not include the phrases "endeavor to" or "but failure to do so shall impose no obligation or liability of any kind upon the insurer, its agents or representatives." City shall not be obligated, however, to review same or to advise Contractor of any deficiencies in such policies and endorsements, and such receipt shall not relieve Contractor from, or be deemed waiver of City's right to insist on, strict fulfillment of Contractor's obligations under this Contract.
- 3.2.4.2 Provide certified copies of endorsements and policies if requested by City in addition to certificates of insurance.
- 3.2.4.3 Replace certificates, policies, and endorsements for any such insurance expiring prior to completion of services.
- 3.2.4.4 Maintain such insurance from the time services commence until services are completed. Should any required insurance lapse during the Contract term, requests for payments originating after such lapse shall not be processed until City receives satisfactory evidence of reinstated coverage as required by this Contract, effective as of the lapse date. If insurance is not reinstated, City may at its sole option, terminate this Contract effective on the date of such lapse of insurance.

3.2.5 Subcontractors and Sub-Subcontractors

Contractor shall include all subcontractors and sub-subcontractors as insureds under its policies. All coverage for subcontractors and sub-subcontractors shall be subject to all of the requirements stated herein for Contractor.

3.3 INDEMNIFICATION

**CITY OF TEMPE GUIDELINES
FOR IMPLEMENTATION OF HEALTH INSURANCE**

These Guidelines are provided for purposes of implementing Resolution No. 2000.73, which requires all employees of prime consultants, general contractors and major subconsultants and subcontractors to have health insurance and to offer health insurance to their eligible dependents, as determined at the start of each project. Questions regarding these guidelines should be directed to the City of Tempe Engineering Division at 480-350-8200.

1. All Prime Consultants who enter into a Public Works contract or General Contractors who bid on Public Works projects that are advertised for bid and enter into a contract in excess of \$30,000 with the City of Tempe ("City") after January 1, 2001, are required to sign an affidavit in the form attached hereto. The prime consultant or general contractor shall require that all major subconsultants or subcontractors, defined as entities doing work in excess of \$30,000, comply with the health insurance requirements. In signing the affidavit, prime consultants and general contractors may refer to and rely upon these Guidelines for interpretation.
2. Health insurance is required for permanent employees who work for the consultant/contractor more than 120 days in any calendar year. A "workday" consists of any time within a 24-hour period, regardless of number of hours, that the individual is paid. This requirement excludes students working part-time who are enrolled in a recognized educational institution. Many companies have a grace period or a qualifying period prior to commencement of insurance coverage, which is acceptable so long as the employee coverage begins by the 120th day of Contract signing. Temporary employees will be covered to the same extent as City covers temporary employees as determined at the start of each project.
3. If a contractor is a "Union" shop and withholds union dues from employees for health insurance coverage that is also offered to their eligible dependents and meets all City requirements, Contractor may so note on the required affidavit.
4. The health insurance requirements herein apply to all employees that are directly involved with City project including support and administrative personnel.
5. Health insurance coverage must be maintained during the entire time of the Contract, including any warranty periods, with the City.
6. All complaints concerning violations of the health insurance requirements shall be filed by an employee, in writing, with the Public Works Department, within 30 calendar days from discovery of the violation. An administrative hearing will be held before the Public Works Director, and a written decision of findings will be provided to the parties to the hearing within 14 calendar days thereafter. Appeal from the decision of the Public Works Director may be made within 14 calendar days of the date of the decision by filing a notice.
7. In the event of a finding by City of a violation of the insurance provisions, the company in violation of the provision shall be barred from bidding on, or entering into, any Public Works Contract with City for a minimum period of three years.
8. All consultants and contractors subject to the health insurance requirements shall post, in English and Spanish, notice of the health insurance requirements at their office and at the job site. Signs for posting will be provided by the City.

These "Guidelines for Implementation of Health Insurance" issued and dated this 21st day of August 2002, hereby amend all guidelines previously issued.

PROMPT PAYMENT REQUIREMENTS

City adheres to the prompt payment provisions of A.R.S. § 34-221.

1. Contractor shall pay to its sub-contractors or material suppliers and each Sub-contractor shall pay to its Sub-contractors or material supplier, within seven calendar days of receipt of each progress payment, the amounts attributable to the Contractor, Sub-contractors or material supplier for work performed or materials supplied. In addition, any reduction of retainage to Contractor must also result in a like reduction to sub-contractors for their work successfully completed within 14 calendar days of the reduction of the retainage to the Contractor. No contract between Contractor and its Contractors, Sub-contractors and material suppliers may materially alter the rights of any Contractor, Sub-Contractor or material supplier to receive prompt and timely payment as provided herein. Any diversion by Contractor, or any Sub-contractor, of payments received for work performed on a contract, or failure to reasonably account for the application or use of such payments, constitutes sufficient grounds for City to take any one or more of the following actions: (1) withhold future payments including retainage until proper disbursement has been made; (2) refusal of all future bids or offers from Contractor for a period not to exceed one year; or, 3) cancellation of the contract.
2. Alternate Dispute Resolution. If entitlement to the payment is in dispute, the parties to the dispute shall submit the matter to either; a) binding arbitration; b) to some other form of binding alternative dispute resolution (ADR); or, c) a City of Tempe facilitated mediation process. The ADR process shall commence within a reasonable period of time, not to exceed 14 calendar days of receipt of a Notice to Proceed to an ADR process issued by City once an ADR determination has been made on any disputed claim, the determination shall be implemented by the disputing parties within 7 calendar days of that determination.

The Contractor shall provide these services as requested in writing by the Engineer to aid in (1) the design of projects, and (2) to facilitate orderly construction of municipal utilities, etc.

The Engineer shall provide plans showing the alignment, centerline, profile (where available), benchmark data, and locations of the required test holes for the selected project.

The Contractor shall obtain all necessary permits from City, county, or other municipal jurisdictions to allow the Contractor to work in existing streets, roads, and rights of way for the purpose of marking, measuring, excavating, and recording the location of existing underground utilities. The Contractor shall not be responsible, however, for obtaining permits for digging, or other excavating work that is not to be performed by the Contractor pursuant to this Contract. The Contractor shall comply with the latest version of the "City of Tempe Utility Permit and Construction Manual".

The Contractor is responsible to apply for and obtain the required "Pothole Permit" for each Work Order. Fees for the Pothole Permit will be reimbursed to the Contractor through the Work Order for each project at the current rate outlined in the Tempe City Code - Appendix A - Schedule of Fees and Charges. The Contractor shall comply with applicable underground utility damage prevention laws. The Contractor shall coordinate with utility company inspectors as required.

The Contractor shall excavate test holes to expose the utility to be measured in such a manner to ensure the safety of the excavation and the integrity of the utility to be measured. The maximum size opening within the roadway shall not exceed one (1) square foot.

The Contractor shall furnish and install color coded permanent markers directly above the centerline of the subsurface object and record the distance from the

concrete or pavement surface to the underground facility. When subsurface objects are not beneath sidewalk or asphalt surfaces, elevations (using the Tempe GIS base data) of the target object shall be established, or the Contractor may place a stable wood or steel stake near the prospect hole and provide differential elevations to that point, as directed by the Engineer. Markers are to be whiskers in soil, and brass washers and concrete nails in paved surfaces. All markers and brass washers shall be labeled with the Contractor name and year of excavation. Whiskers and ribbons shall be colored-coded per "Arizona 811" colors to appropriately identify the type of utilities located.

Where applicable, the Contractor shall provide permanent restoration of pavement within limits of the original cut. Restoration shall be per MAG Standard Detail 212 Type A as detailed per the City of Tempe Engineering & Transportation Maintenance Pavement Restoration Policy, December 1, 2020. Whenever test holes are excavated in areas other than roadway pavement, these disturbed areas shall be restored to as good or better condition than those which existed prior to excavation.

The Contractor shall conform to the approved traffic control plans and always have a copy of the approved traffic control plan on site.

The Contractor shall provide notification, when required, to adjacent property owners concerning locating activities on all projects.

The Contractor shall conform to Arizona 811 and any applicable Arizona Revised Statutes, to ensure the safety of the excavation and the integrity of such utilities.
