Introduction

The WST LED is designed with the specifier in mind. The traditional, trapezoidal shape offers a soft, non-polluted light source for end-user visual comfort. For emergency egress lighting, the WST LED offers six battery options, including remote. For additional code compliance and energy savings, there is also a 3-axis motion sensor option. With so many standard and optional features, three luminaire packages, and high LPM, the WST LED is your "go-to" luminaire for most any application.
