

## IVR PROCEDURE FOR FIRE PERMIT INSPECTIONS REQUESTS

Follow the standard procedure for requesting an inspection through the IVR system (as stated on reverse), but when prompted, leave a message for the Fire inspector with a phone number where you can be reached between the hours of 6:00 am - 2:30 pm. The Fire Inspector will contact you the next business day to confirm the date and arrange an inspection time. Based on inspector availability, the inspection request may be rearranged to a different day and/or time during this call.

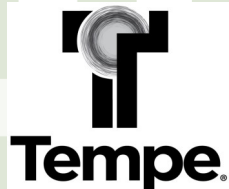

**NOTE:** Your inspection is not scheduled until the Fire Inspector confirms the date and time.

When making multiple inspection requests, each request must be made separately, using the fire permit number for which the work is authorized. This can be done during the same phone call by following the prompts.

**EXAMPLE:** A project with a fire alarm and overhead fire sprinkler permits would need to request the (509) Fire Alarm Systems (final) using the fire alarm permit number, then request the (523) Automatic Sprinkler System (OH final) using the overhead fire sprinklers permit number.

If you have difficulty scheduling the inspection, you may press "0" during normal business hours (Monday through Friday from 8:00 am to 5:00 pm) and a staff person will assist you.

Please call (480) 350-8341  
Option 1 with any questions.

## IVR Fast Track Instructions

1. Dial (480) 350-8072
2. Press 1 for English or 2 for Spanish
3. Press 1 to schedule an inspection \*
4. Press 1 for a (BP), 2 (IP), 3 (FR), 4 (EN), 5 (SGN), 6 (PL), and 7 for (ZP)
5. Enter the numeric portion of the permit
6. Enter inspection code followed by the # sign
7. Press 1 for a next business day inspection or listen to the prompts for an alternate day
8. **Press 1** to end the call and hear your call (confirmation) number **Press 2** to request additional inspections under the same permit number OR Press 3 to request an inspection on a different permit.

**\*You must receive and retain the confirmation number at the end of the call for the inspection to be scheduled.**

### \*OTHER AVAILABLE OPTIONS AT STEP 2

**Press 2** to cancel an inspection, then follow the prompts (must be done before the scheduled inspection day).

**Press 3** to obtain inspection results, then follow the prompts (the inspector may have left a message for you).

**Pressing the # sign** will allow you to back-up one step

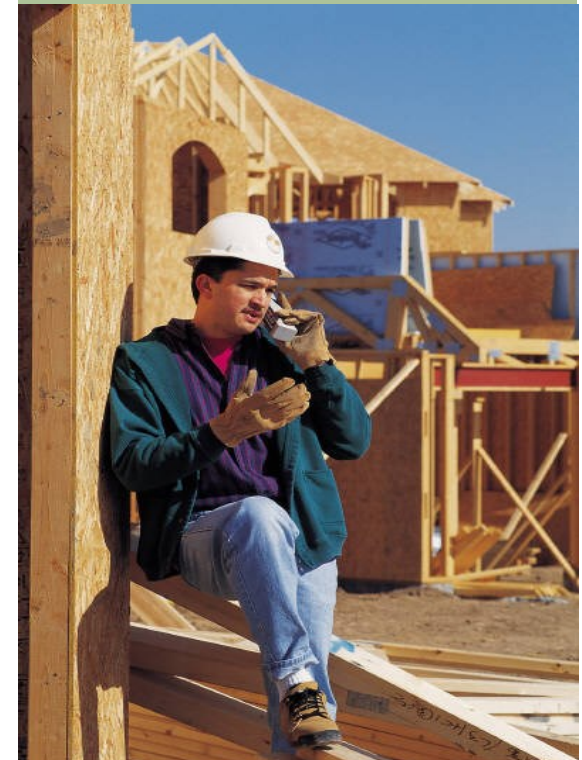

## Building Safety Inspections

# INTERACTIVE VOICE RESPONSE (IVR) INSPECTION CODES

IVR LINE: (480) 350-8072

## IVR Permit Inspection Codes

To provide better service to the community, the City of Tempe Community Development Department has implemented an Interactive Voice Response (IVR) automatic telephone system, which allows customers to schedule their inspections by calling the IVR number with touch-tone phones. Rotary-dial phones do not work with the IVR system.

Before calling, you will need the six (6) digit permit number and one or more of the inspection codes listed on this brochure. **Call (480) 350-8072** from a touch-tone phone. You will be prompted through the process.

**For an estimated time of arrival, call (480) 350-8341, Option 1, between 6:00 AM to 6:30 AM the morning of your inspection.**

When there are multiple permits (building, fire, engineering, etc.) associated with a project, the inspection request(s) must be made using the appropriate permit number for which the work was authorized. Please call (480) 350-8341, Option 1, with any questions regarding the IVR system or inspection codes.
