

PUBLIC INPUT SUMMARY

Overview

A public meeting was held on May 5, 2018 for feedback on planned improvements for Tempe Women’s Club Park. Residents in the area of McKellips to Curry, Scottsdale to College (773 residents) were invited to participate in the process via postcard. Notices were posted to Nextdoor to 229 households in 3 neighborhoods directing residents to both the meeting and the website. Signs were also placed in the park announcing the meeting. Eight (8) people signed in for the meeting. Residents were asked to provide input on play structure design, rubber surfacing pattern, and future lighting for the park. Surveys were available at the meeting and online from May 5 through May 19, 2018. A total of 11 survey responses were received, five (5) at the public meeting and six (6) online.

Map of Survey Respondents

1. The top playground equipment selection for Tempe Women’s Club Park was a water-themed play structure. Which water-themed play structure do you prefer?

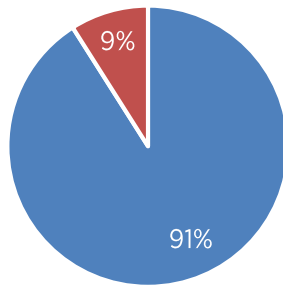

WATER THEMED PLAY STRUCTURE 'A'

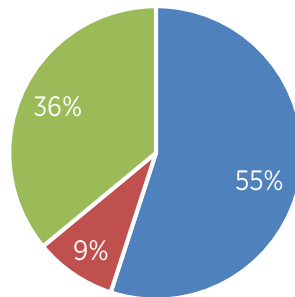

WATER THEMED PLAY STRUCTURE 'B'

TEMPE WOMEN'S CLUB PARK PLAY STRUCTURE SELECTION

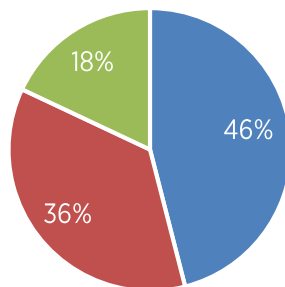

■ Option B (10) ■ Option A (1)

2. A toddler swing could be installed if a slide was removed from the chosen play structure. Would you support the removal of a slide and the addition of a single-bay toddler swing?

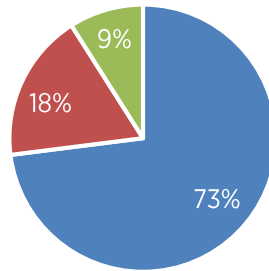

■ Yes (6) ■ No (1) ■ No Answer (4)

3. The surface of the play area will be rubberized. Which pattern would you like to see in the surfacing?

■ Water Cycle (5) ■ Splash (4) ■ Stream (2)

4. Currently, since there is no lighting in the park, the park will close at dusk. Should funding become available, would you support lighting in the park? (The park would then be open until 10pm)

■ Yes (8) ■ No Opinion (2) ■ No (1)

5. Additional Comments:

1. There isn't a question heading the options of Water-cycle, stream, and splash. At the very top it mentions rubber surfacing designs, so I answered the way I did assuming that my selection was the design of the soft-impact flooring of the playground space. (**Survey was edited after this initial response)
2. We love this park and are excited for playground updates. we really enjoy the beautiful and diverse plants.
3. Thank you, Tempe! I am sure we will enjoy the playground when its built. I can't wait to play on it! (L, age 8)
4. We use this park all the time since it is just down the street from Grandma's house. Is there a way to put the Ramada closer to the parking lot? Having it way out on the busy corner of the park does not make it very good for families with small children. Having it closer to the parking lot makes a whole lot more sense and if it was by the trees also cooler in the summer.
5. The homeless MUST be kept out of the park!
6. As a family we love this park and have enjoyed it very much over the years. It appears that the new Ramada being considered is near the SW corner of the park? Personally it would be so much better if it were closer to the parking lot. Where it is being proposed is too far for carrying food. Parking too far away.
7. Thank you!!
8. Having a restroom facility or at least a dog watering system - investigate photovoltaic, too
9. My primary concern is reducing transients at the park, especially the camping.
10. Lights would help to use the park in the evening. Dog watering system would be great.
