

Building Development Plan Review [BDPR] offers an opportunity to streamline the planning entitlement process with the plan review and building permit process to help projects save time and money. This process is available for existing commercial buildings only.

The following are examples of eligible projects:

- Tenant improvements with minor exterior building modifications including doors, windows, exterior lighting, parapet and mechanical screening
- Landscape and site lighting modifications
- Parking canopies including photovoltaic
- Adaptive Reuse
- Wireless antennae modifications and generators
- Accessory buildings such as storage buildings and equipment enclosures
