RE: Aoufe University
1835 E. University Drive, Tempe
Subdivision Plat
Letter of Explanation

To whom it may concern,

On behalf of Aoufe Investments, L.L.C., we are requesting a Subdivision Plat Approval for a building expansion to the existing building located on Parcel No. 132-63-001J. This subdivision will combine Parcel No. 132-63-001J with the parcel directly to the east, Parcel No. 132-63-001K, to create a one lot subdivision.

Approval Criteria (RE: Chapter 30 – City Code) – Subdivision Plat approval shall be based on consideration of the following criteria:

1. Every subdivision shall conform to the requirements and objectives of the general plan, or any parts thereof, as adopted by the commission and the city council.

Response: Approval of the proposed project will advance the goals and objectives of, and is consistent with, the policies of the General Plan and any other applicable City plan and/or policies.

2. Every subdivision shall conform to the requirements of the Zoning and Development Code and to other ordinances and regulations of the city, and to the Arizona Revised Statutes.

Response: The proposed subdivision plat has been designed to conform with the requirements of the Zoning and Development Code development standards.

3. Land which is subject to periodic flooding, land which cannot be properly drained, or other land which, in the opinion of the city, is unsuitable for any use shall not be subdivided; except that the city may approve subdivision of such land upon receipt of evidence from the city engineer that the

construction of specific improvements can be expected to render the land suitable; thereafter, construction upon such land shall be prohibited until the specified improvements have been planned and construction guaranteed.

Response: This project is located in a well-developed area of the City. All public services, facilities, and infrastructure are available to serve this project. At the time of the survey performed by Starlink Surveying, Inc. dated 11/12/18, the property is located within zone "X" as shown on the FEMA Flood Insurance Rate Map No. 04013C2245L, Dated October 16, 2013. Zone "X" is defined as areas of 0.2% annual flood; areas of 1% annual chance flood with average depths of less than 1 foot or with drainage areas less than 1 square mile, and areas protected by levees from 1% annual chance flood.

CONCLUSION

The proposed Subdivision Plat request is consistent with the vision of the City of Tempe providing goods, services, and sales tax revenues to the residents of the city. The proposed retail development will provide commercial services to the area residents and travelers along University Drive and McClintock Drive. The subdivision plat has been designed to conform with all development standards of the Tempe City Code.
