## 1. Tempe-Phoenix Intergovernmental Agreement on Noise Mitigation Flight Procedures

I am more concerned about PHX departures over Tempe downtown areas than planes coming in to land at PHX.

Agree  Disagree  Uncertain

Tempe-Phoenix Intergovernmental Agreement (1994) is about departure compliance over the Tempe Town Lake out to the SR101/202 and equalization of departures east and west of the airport.

I have the following question regarding the Tempe-Phoenix IGA:

I want my question to be reflected in the questions directed to the meeting panel by the moderator

## 2. Air traffic flow management of arrival operations close to PHX

I have noticed a significant change in the number of incoming aircraft.

Agree  Disagree  Uncertain

PHX runways are most of the year operated in east flow during mornings and west flow in the afternoons, unless the air traffic flow is changed because of winds and bad weather. The runway use brings departures over Tempe in the morning and arrivals coming over Tempe to land from the east during afternoons, evenings and often during night time hours.

I have the following question regarding the routing of arrival operations over Tempe:
