I'm a friend of Mr Gay . Have known him for over 10 years at same address. He,s a good man and person.. Anybody would be lucky to have Kenny as a neighbor as he"s always doing something for somebody. so not surprising he has neighbors on both side of him willing to address this matter on his behalf in court if necessary.

Originally Tempe was the victim. But now Mr Gay is the victim and the City the offender The City is trying to take Mr. Gays Property. the Inspector in this matter has used rhetoric like ( Its out of my hands now. When we come back were taking Everything } Sounds to me as if Inspector somehow is bias in this matter. Taking it way to Personal.

Mr Gay believes its a crime against all citizens if you dont recycle. And a Sin against GOD to throw away something another could use. Pretty sad when a person agrees with recycling yet has to pay to the extent of losing his house for something the City already advocates for (recycling).

I"ve seen first hand Mr Gays health deterreorate over the last 3 years because of this very matter.

I think the City should cease and desis Against Mr Gay. City should tell him Keep up the good work Recycling. Wish all our residents did the same. Did you ever start to thank where Mr Gay got these items he needs to rid himself of ?? Guess! How about off the Cities streets. thats where. He"s hauling away stuff if not taken definitely would be an eye sore. I"m sure city pays workers to to pickup stuff Mr Gay picks up for free .Maybe city should pay Mr Gay to pickup stuff . No that would make too much sense. Instead lets charge mr Gay 3 or 5 thousand dollars to pickup stuff he"s consolidated for us and put a lean against his property.

Is it just me or does this sound really messed up?????

Any consideration in this matter would be appreciated thank You Robin B Jones  
Another senior citizen as is Mr gay
