Federal Update

Via Ballard Spahr, 1/14/22

Attached is a federal update that includes summary information on the Treasury's final rule on American Rescue Plan Act (ARPA) funding, the Supreme Court's emergency stay of the OSHA ETS, the Supreme Court action on the CMS vaccine mandate, and health plan coverage for COVID-19 testing.

State Legislative Update

January 10, 2022 was the 5th day of the 2022 state legislative session. As of today, 847 bills have been posted. Additional bills will continue to be posted over the coming weeks. The bills of interest to Tempe will be added to lists (described below). Bills of significant interest will be highlighted in future memo summaries as the session progresses and bills gain momentum in the legislative process.

Bill Lists

The bills of interest to Tempe will both be added to the lists and be fine-tuned in the coming months as more information is available and as bills continue to be introduced and other bills die when they fail to meet deadlines for scheduling or passage. Staff is analyzing legislative proposals as they become available. The lists will be adjusted to reflect the latest available information.

The tracking list (List 1) that follows this memo includes the summaries of bills that may be of interest to Tempe. These lists are not exhaustive, and as more analysis is done, additional comments and/or bill tracking lists may be included. Readers can use the search/find tool (keyboard shortcut: press "Ctrl" and the "F" key) to search for terms of interest, like fireworks, rentals, zoning, etc.

In addition to the bills on the tracking list, the City will also be monitoring for proposals in areas including the following:

- Affordable Housing
- Short Term Rentals
- Proposition 400 Extension Authorization
- Fireworks
- Tobacco/Vaping
- Taxation Proposals
- Water Policy

The city's framework for responses to legislative proposals is the Council supported Tempe State Legislative Principles, which are available at [this link](#).

Attached is a one-page summary of SB 1067, the WIFA legislation that was created by The Arizona Municipal Water Users Association (AMWUA). Councilmember Doreen Garlid is the Tempe representative on the AMWUA Board.

State Executive Budget

The Governor's Office released the FY 2023 Executive Budget this afternoon. The summary is available at [this link](#) and the full budget with attachments is available at [this link](#).

The League of Arizona Cities and Towns has put together an initial list of items in the budget that would be of interest to cities and towns:

- \$611.3M to PSPRS for unfunded liabilities, bring the funded status to 100%
- \$10M for cyber security grants available for cities and towns and school districts
- Integrated Tax System Modernization Project
 - \$104.8M over FY23- FY28; \$61.3M from state General Fund (GF) + \$43.5M from cities/towns/counties/etc.

- FY23 = \$9.2M from the GF; \$6.6M from cities/towns/counties/etc.
- FY23, Cities contribute \$4.6M from local TPT and shared revenues

\$50M state investment for rural transportation grants (SMART Grants)

\$400M for I-10 expansion between Casa Grande and Phoenix

Updates with additional analysis of the Executive Budget will be provided.

State Baseline Budget

The Joint Legislative Budget Committee (JLBC)'s Baseline Budget is available at [this link](#). This provides the "baseline" of the policy decisions and appropriations that have been enacted in earlier legislative sessions that are the starting point for the FY 2023 state budget. The bills passed in this current session will adjust the values in the baseline budget.

City of Tempe Federal Update

January 14, 2022

Treasury Final Rule on ARPA Fiscal Recovery Fund

On January 6, the U.S. Department of the Treasury issued its Final Rule governing the use of State and Local Fiscal Recovery Fund dollars. The Recovery Fund, which was authorized by the *American Rescue Plan Act* (ARPA), provides nearly \$46 million in direct, flexible COVID-19-related fiscal relief to the City of Tempe.

The Final Rule takes effect on April 1, 2022 and provides additional clarity and flexibility for state, local, tribal and territorial governments. It should be noted that jurisdictions can choose to take advantage of the Final Rule's new flexibilities and simplifications immediately. Until April 1, Treasury's Interim Final Rule (IFR) remains in force; accordingly, jurisdictions that use funds consistently with the IFR while it is in effect are in full compliance with the Recovery Fund program.

Among other revisions, the Final Rule allows counties to use up to \$10 million in ARPA Recovery Funds for the provision of government services *without* having to go through a complicated revenue loss calculation (referred to as the so-called "standard allowance" option). If a city chooses to calculate actual revenue loss according to Treasury's formula, they may do so on a calendar *or* fiscal year basis and must adjust actual revenue totals for the effect of tax cuts and tax increases that are adopted after January 6, 2022 to more accurately reflect pandemic-related revenue loss.

The Final Rule also expands eligible uses for water and sewer projects to include culvert repair, dam and reservoir rehabilitation, and stormwater infrastructure. Similarly, the rule expands eligible broadband investments to allow recipients to address access, affordability & reliability challenges.

In addition, the rule clarifies how cities can use Recovery Funds for certain capital expenditures to respond to public health and economic impacts, with recipients (other than Tribal governments) required to complete written justification for capital expenditures at or over \$1 million. The rule also expands support for public sector hiring/capacity and streamlines options to provide premium pay for essential workers.

The full text of the Final Rule is available [here](#) and a user-friendly overview of the major provisions can be accessed [here](#). The Treasury Department also recently posted a [webinar](#) and [slide presentation](#) on the Final Rule.

COVID-19

OSHA Vaccine Mandate for Businesses

On January 13, the US Supreme Court issued an emergency stay of the OSHA ETS, finding that the parties challenging the rule are likely to prevail on the theory that the Secretary of Labor lacked authority to issue the rule.

The Court found that OSHA's ETS is "no everyday exercise of power." Rather, it is a significant encroachment into the lives and health of a vast number of employees. The Court found that OSHA exceeded its authority to set *workplace* health standards, instead opting to create a broad public health mandate. The Court also found that COVID-19 is not a work-related danger within OSHA's jurisdiction. It is a universal risk that spreads everywhere that people gather, similar to crime or air pollution.

The Court did find that OSHA has authority to regulate occupation-specific risks related to COVID-19. For example, where the virus poses a special danger because of the particular features of an employee's job or workplace, targeted regulations are plainly permissible, such as in crowded or cramped work environments.

In balancing the harms of staying or not staying the rule, the Court said it is Congress's job to weigh the billions in compliance costs and loss of jobs if the rule takes effect with the potential loss of life and hospitalizations if the rule does not take effect. In the words of the Court: "It is not our role to weigh such tradeoffs."

The Court stayed the ETS pending disposition of the petitions for review in the Sixth Circuit and disposition of the applicants' petitions for writs of certiorari, if timely sought. The decision of the court was issued per curiam, with Justices Gorsuch, Thomas, and Alito concurring in the decision, and Justices Breyer, Sotomayor, and Kagan dissenting.

In the concurring opinion, Justice Gorsuch posited the question before the Court as not how to respond to the pandemic, but who holds the power to do so. The Concurring Justices said the answer is clear – Congress and the states. If administrative agencies seek to regulate the daily lives and liberties of millions of Americans, they must at least be able to trace that power to a clear grant of authority from Congress.

CMS Vaccine Mandate

At the same time, the Supreme Court upheld the CMS vaccine mandate in a 5-4 decision. The Court released the CMS rule from the stays imposed by two district courts, thus allowing the rule – which requires facilities that receive Medicare and Medicaid funding ensure that their staff is vaccinated against COVID-19 – to take effect. Justice Thomas issued a dissenting opinion, joined by Justices Alito, Gorsuch and Barrett.

The majority found that the Secretary of Health and Human Services was authorized to impose conditions on the receipt of Medicaid and Medicare funds that "the Secretary finds necessary in the interest of the health and safety of individuals who are furnished services." As COVID-19 is a highly contagious, dangerous, and—especially for Medicare and Medicaid patients—deadly disease, the Secretary properly determined that a COVID-19 vaccine mandate will substantially reduce the likelihood that healthcare workers will contract the virus and transmit it to their patients. Accordingly, a vaccine mandate is "necessary to promote and protect patient health and safety" in the face of the ongoing pandemic.

In distinguishing between the OSHA ETS rule and the CMS rule, the Court said that the challenges posed by a global pandemic do not allow a federal agency to exercise power that Congress has not conferred upon it (i.e. OSHA). At the same time, such unprecedented

circumstances provide no grounds for limiting the exercise of authorities an agency has long been recognized to have (i.e. CMS).

Health Plan Coverage Required for COVID-19 Testing

In other agency news, DOT, DOL, and HHS jointly have issued a new set of FAQs that require health plans to cover the cost of over-the-counter COVID-19 test kits obtained without a health care provider's prescription or clinical assessment. The coverage of these over-the-counter products must be furnished without prior authorization or other medical management and without any out-of-pocket expense to the plan participant. Plans must meet the requirements set forth in the FAQs no later than January 15, 2022, and continue to meet them through the public health emergency. To learn more, see our [Alert](#) on this topic.

H2033: JUVENILE OFFENDERS; MONETARY SANCTIONS; REPEAL	Deletes various provisions allowing or requiring the court to require the parent or guardian of a minor child to bear the expense of the child's public defender, foster care services, diversion programs, probation services, or treatment or services while detained or incarcerated. Repeals various fees related to juvenile offenses. If a juvenile is required to pay a monetary assessment, the juvenile must have the option to satisfy the assessment through community restitution, paid at a rate equal to the minimum wage rounded up to the nearest dollar. The court is prohibited from ordering a juvenile or the juvenile's parent or guardian to pay a fee, fine, or cost that is not specifically required by the offense or citation. As session law, the unpaid outstanding balance of any fee, surcharge, or monetary assessment that was imposed on a juvenile or the juvenile's parent or guardian before the effective date of this legislation and that was amended or repealed by this legislation are eligible to be vacated. Unsatisfied civil judgments for those fees are eligible to be deemed null and void. Within six months after the effective date, the Administrative Office of the Courts is required to develop and implement procedures for an individual to request a court to vacate an eligible unpaid balance or unsatisfied civil judgment. The court is authorized to automatically vacate any eligible unpaid balance or unsatisfied civil judgment by judicial discretion without requiring a request. Appropriates \$231,000 from the general fund in FY2022-23 to the Supreme Court for costs of court-ordered juvenile treatment services, and \$2.3 million from the general fund in FY2022-23 to each county for costs related to attorney fees, probation services and diversion expenses for juveniles.

S1059: VETERANS; SURVIVING SPOUSES; GOVERNMENT PARKING	State agencies with jurisdiction over street parking or publicly owned and operated parking facilities are required to provide specially designated and marked parking spaces for the exclusive use of "veterans" (defined elsewhere in statute and includes the veteran's surviving spouse), which must be adjacent to the parking space designated for persons with physical disabilities.	

SB 1067 STREAMLINES THE REGULATORY PROCESS FOR CRITICAL WATER INFRASTRUCTURE FUNDING

Investment in Arizona water and wastewater infrastructure is crucial for a secure water future

- Investment is needed in pipelines, canals, treatment plants, and countless other technology upgrades to ensure that Arizona's water supplies remain clean and reliable.
- This infrastructure is all the more important as the Southwest continues to endure over 20 years of drought and 2022 marks an historic Tier 1 Shortage declaration on the Colorado River.

WIFA is a key state agency for Arizona water resilience

- The Water Infrastructure Finance Authority of Arizona, or WIFA, is a key state agency that assists utilities and communities to fund wastewater and drinking water infrastructure improvements. WIFA lends to public and private water utilities all across Arizona.
- WIFA leverages federal and state dollars to provide infrastructure loans. As loans are paid back with interest, the money stays in Arizona and can be reinvested into additional infrastructure projects and financial assistance.

SB 1067 aligns the WIFA process across all utilities and will generate increased investment into Arizona water infrastructure

- SB 1067 would streamline the statutory process so that cities and towns with over 150,000 people can also utilize WIFA financing for critical water infrastructure without having to place the issue on the ballot. This enables all municipalities to have ready access to WIFA's infrastructure funds to meet the needs of their communities.
- Removing this regulatory hurdle will allow Arizona to capitalize on federal infrastructure funding and will bolster WIFA's project portfolio. This will strengthen WIFA's ability to maintain low interest rates and to leverage funds for even more infrastructure investment throughout the state.
- Small and disadvantaged communities are prioritized recipients of WIFA loans and forgivable principal, and SB 1067 will ultimately increase availability of WIFA loan funds to all communities.

SB 1067 will expand utilization of WIFA funds and boost investment in critical water infrastructure

Mission Statement:

The Tempe Historic Preservation Plan (Resolution 97.44; Resolution 2000.34) follows:

I. Introduction

Tempe enjoys a rich multi-cultural heritage evident through its historic buildings, neighborhoods and structures. Less visible, but equally important, are the archaeological resources of Tempe's past. Protection and enhancement of Tempe's heritage is critical to preserving the unique identity of our community. The blending of the past with the present enriches our city and all of its citizens.

In November of 1995, both as an expression of civic pride and the beginning of the future of historic preservation in Tempe, the Tempe City Council unanimously adopted the Tempe Historic Preservation Ordinance. Most importantly, the ordinance created the Tempe Historic Preservation Commission, the Office of the Tempe Historic Preservation Officer, and the Tempe Historic Property Register.

As one of its first acts, the Commission prepared a Preservation Plan. The Plan identified goals and policies for historic preservation in Tempe. These goals and policies are hereby refined and updated.

II. Goals

The Commission recognizes three goals for historic preservation in Tempe:

1. To identify, preserve and protect significant historic properties and archaeological sites.
2. To foster economic vitality through preservation of properties which contribute to the historic character of the community.
3. To integrate historic preservation planning with that conducted by boards, commissions, neighborhood and redevelopment planning efforts as a means to protect and enhance community heritage and [complement] City redevelopment plans.

III. Goal Components

1. Advise. Advise the City Council and other applicable City boards and commissions on all matters within the Commission's purview.
2. Inventory and Designate. Recommend, to the Planning and Zoning Commission, inclusion on the Tempe Historic Property Register. Identify, through inventory and assessment, methods, structures and localities where historic properties are imperiled, in order to ensure that alternatives to destruction are considered, and, use such methods to set preservation priorities and promote the identification and classification of properties that are eligible for historic designation.
3. Review. Review requests to alter, remodel, rebuild or otherwise develop designated properties. Review requests to demolish or remove a designated property.
4. Assist. Assist in making ownership of an historic property as beneficial as possible. Help by designating properties to the Tempe Register and assisting their owners to obtain incentives for preservation by rehabilitation, restoration or maintenance. Develop financial and other incentives with the City that will encourage the preservation of historic properties.
5. Educate. Increase public awareness among residents and businesses of the value of historic preservation. Promote education in Tempe history and historic properties in local schools.
6. Compile. Compile information about historic properties and the historic character of Tempe for the purpose of identifying structures, properties, districts and archaeological sites worthy of preservation. Share this information with boards, commissions, neighborhood and redevelopment planning efforts, as well as the general public, so that it may be considered in current and future development.

IV. Policies

1. Prehistoric archaeological resources are of special concern to Native American groups. The City, represented by the Historic Preservation Officer and Commission, will consult with representatives of Native American tribes to identify concerns regarding the treatment of archaeological resources.
2. Preservation "in place" is the preferred outcome for the long-term management of historic properties. When this is

not possible, relocation or documentation is the recommended alternative to preserve the historic characteristics of the property.

3. When the goals of the Historic Preservation Commission are in conflict with those of other boards, commissions, neighborhood or redevelopment planning efforts, a solution based on consensus and compromise (defined in a Memorandum of Understanding) is the preferred outcome.

V. Conclusion

As set forth above, this is a plan of action to implement the Tempe Historic Preservation Ordinance, and a mission statement for the Tempe Historic Preservation Commission. Strategic goals will be developed by the Commission as part of an action plan.

Accomplishments (Past 12 Months):

Accomplishments of the Historic Preservation Office and the Historic Preservation Commission for 2021 include:

Cultural Resources Inventory and Blanket Archaeological Monitoring, Discovery, and Treatment Plan: Preservation staff continued working with Logan Simpson to prepare a citywide cultural resources inventory and a blanket archaeological monitoring, discovery, and treatment plan. It is anticipated that both documents will be ready for Historic Preservation Commission and, subsequently, City Council review in early 2021.

Governor's Heritage Preservation Honor Award: The Tempe Historic Preservation Office, in addition to Hensel Phelps, Adobe Technology, LLC, and Motley Design Group, received a Governor's Heritage Preservation Honor Award for its role in the rehabilitation of the 1873-1924 Charles T. Hayden House, the oldest Euroamerican building in the Salt River Valley.

Four Southern Tribes Cultural Resource Working Group Representation: The Historic Preservation Commission recommended revising the City historic preservation ordinance to include permanent Four Southern Tribes Cultural Resource Working Group representation. The City Council subsequently voted to amend the historic preservation ordinance to ensure such representation. Reylynn Williams, a member of the Gila River Indian Community, was nominated for the seat by the Four Southern Tribes Cultural Resource Working Group; her nomination was confirmed by the City Council.

Historic Preservation Plan / Historic Property Survey and Inventory: Preservation staff continued working with Archaeological Consulting Services to prepare an historic property inventory and an historic preservation plan. The scope of work includes a pre-1961 inventory of commercial, industrial, and multi-family buildings in the Urban Core; a citywide inventory of properties constructed between 1961 – 1975, inclusive; and an updated historic preservation plan. The November 2021 Historic Preservation Commission agenda included commission consideration of the draft historic preservation plan.

Land Acknowledgement Statement: Preservation staff worked with the Four Southern Tribes to develop a land acknowledgement statement for the City of Tempe. The City Council passed the acknowledgement on January 14th, 2021 (R2021.08).

Tempe Depot: The Historic Preservation Office and Historic Preservation Commission worked with internal colleagues

and RED Development to ensure the preservation and archaeological mitigation of the 1923 Fitzhugh & Byron-designed Tempe Depot, a resource not currently listed in the Tempe Historic Property Register. The building will be rehabilitated, added to the Tempe Historic Property Register, and subjected to façade and limited airspace conservation easements in association with an approved redevelopment of the property. The developer also committed to data testing and, if needed, data recovery. Logan Simpson completed this work in October 2021.

Goals Related to City Council Strategic Priorities, if Applicable (Next 12 Months):

Goal: Complete an historic property survey and inventory, an update to the Tempe Historic Preservation Plan and, if necessary, revise the City’s historic preservation ordinance to address gaps and opportunities identified in the revised historic preservation plan

The City engaged Archaeological Consulting Services, Ltd. (ACS) for the “Preparation of a Historic Property Survey and Inventory and a Historic Preservation Plan”. Despite COVID-19-related delays caused by restricted access to relevant archives and limited opportunities for Tribal consultation meetings and public meetings, among other challenges, it is anticipated that the deliverables will be complete or substantially complete by the end of 2021. The Scope of Services includes three tasks, those being:

Task 1: Urban Core Pre-1961 Inventory

An inventory of pre-1961 commercial, industrial, and multi-family housing properties be inventoried within the Urban Core that pre-date 1961 (the beginning date of inventory for the original RFQ). All properties pre-dating 1961 located within the Urban Core, with the exception of single-family residential and Arizona State University (ASU) properties, will be inventoried and assessed for National Register of Historic Places (National Register) eligibility. This inventory will include previously evaluated properties to ensure that their eligibility has not changed since the original documentation. All properties will be coded by property type and eligibility using GIS.

Task 2: Inventory and Research for 1961 – 1975 Properties

ACS will conduct a survey and inventory of individual properties (buildings, structures, and objects) and potential residential districts constructed between 1961 and 1975. The survey and inventory will locate representative styles within residential neighborhoods. This method allows us to capture the architectural styles, identify significance of those neighborhoods, and assess general integrity. Detailed information regarding character-defining features, circulation patterns, and number of contributors/noncontributors will not be collected for this study. Documentation of properties recommended eligible will be consistent with that prepared for the Historic Eligible classification used by the City; Historic Property Inventory Forms and Update Forms will not be required, although details regarding significance, integrity, and National Register eligibility will be provided. Properties recommended not eligible will be presented in a table with justification for the recommendation. All properties will be coded by property type and eligibility using GIS.

Task 3: Historic Preservation Plan

Based on previous experience and using other plans prepared for Salt River Valley cities as a guide, ACS anticipates the City’s historic preservation plan will include the following sections:

1. Regulatory Contexts
2. Summary of Prehistoric and Historic Contexts and Tempe Resources
3. Tribal Perspective
4. Preservation Program

5. Planning Considerations

Regulatory contexts will include discussion of federal, state, and municipal laws that apply to projects conducted within City limits, as well as the responsibilities of the City as a Certified Local Government (CLG). A summary of prehistoric and historic contexts will be presented. These will be brief but include examples of relevant historic property types in Tempe, as well as important aspects of integrity and significance for each property type. An annotated bibliography will be prepared to provide readers with references for large historic property studies and summaries. A tribal perspectives component will be prepared and included in the plan (please see detailed scope below). A discussion will follow regarding the current historic preservation program in Tempe. This section will include reference to the HPO and City process documents, as well as National Register designations, the local property register, Historic Eligible properties, applications and internal City processes, and the role of the HPC. Finally, planning considerations will be presented. This section will include historic preservation considerations with reference to historic preservation elements from the 2040 Plan, Urban Core Master Plan components, and recent Character Area development. This section of the plan will also provide goals and priorities, as identified by staff, consulting agencies, stakeholders, and the public regarding historic preservation in Tempe and how those will fit into the City's short-term and long-range planning. Finally, the plan will include recommendations to help formalize these priorities into the City's planning process. These recommendations will be prepared in consultation with the City Historic Preservation Officer and Project Manager.

The preparation of the plan has included extensive Tribal and public outreach.

Updating the City's historic preservation plan and revising the historic preservation ordinance aligns with Council priorities two (... emphasizing the importance of open government, customer service and communication with community members...), three (... investment in neighborhoods, parks, the arts, human services, and city amenities...), and four (... sustainable growth and development strategies...).

Goal: Complete a citywide Cultural Resources Inventory and Blanket Archaeological Monitoring, Discovery, and Treatment Plan

The City engaged Logan Simpson to prepare a citywide Cultural Resources Inventory and Blanket Archaeological Monitoring, Discovery, and Treatment Plan. Despite COVID-19-related delays caused by restricted access to relevant archives and limited opportunities for Tribal consultation meetings and public meetings, among other challenges, it is anticipated that the deliverables will be complete or substantially complete by the end of 2021. The Scope of Services includes a Planning Phase and a Working Phase. Tasks associated with each phase follow:

Planning Phase Services:

- Provide detailed independent knowledge of known archaeological sites within Tempe and the Salt River Valley;
- Provide detailed independent knowledge of monitoring and discovery plans and Arizona State Museum / Arizona State Historic Preservation Office / Section 106 / Section 4(f) submittal, review, and approval procedures;
- Identify key general stakeholder groups; and
- Provide project planning, scheduling, and execution, including at least four meetings with representatives of the Four Southern Tribes and other communities claiming ancestral affiliation with the Tempe, two general stakeholder meetings, and two Historic Preservation Commission meetings.

Working Phase Services:

- A Cultural Resources Inventory inclusive of known archaeological sites, prehistoric canals and Traditional Cultural Properties;
- GIS maps (for internal use only) related to the items above;
- At least four meetings with representatives of the Four Southern Tribes and other communities claiming ancestral affiliation with the Tempe area
- At least two meetings with key general stakeholder groups identified in the Planning Phase;
- Two meetings with the Historic Preservation Commission; and
- Delivery of a Cultural Resources Inventory and Blanket Monitoring, Discovery, and Treatment Plan, crafted with input from City staff, the Four Southern Tribes, general stakeholders, and the Historic Preservation Commission.

Fulfillment of City responsibilities and compliance with all applicable cultural / historic resource laws, regulations, and agreements aligns with Council priorities number one (... commitment to... justice), two (... emphasizing the importance of open government...), three (... emphasis on equity), and four (... sustainable growth and development strategies...).

Mission Statement:

To promote mutual understanding and respect among the many groups of people who live, work and visit our city. To eliminate conditions which enable prejudice and discrimination to exist, and to create an environment whereby people from different backgrounds feel welcome and at home in our community.

Accomplishments (Past 12 Months):

- In celebrating our Tempe community with an emphasis on equity and diversity, in January the HRC hosted the annual MLK Diversity Awards. Due to COVID-19, the awards were held virtually. However, HRC Chair Kate Vawter and Mayor Corey Woods were present to emcee and give the keynote address, respectively. The event featured a pre-recorded performance by The Stakes and Tower of Power, sponsored by Chicanos Por La Causa. Other elements of the award ceremony were sponsored by TechData, Flash Photography, and Tempe Employee Groups (Fire, TOA, TSA, and UAEA). A total of ten Diversity Awards were presented in the categories of Individual Adult, Individual Youth, Community Group/Organization and Educational. **Council Priority 3. Tempe City Code Chapter 2, Article V, Division 6, Section 2-230 (1) and (4).**
- Also in January, the HRC hosted a socially distanced alternative to the annual Regional Unity Walk. Rebranded as the Unity "Art" Walk, the cities of Chandler, Gilbert, Guadalupe, Mesa, Phoenix and Scottsdale joined Tempe to display art (murals, photos, performances, sculptures, and paintings) and performances under the theme "Regional Unity ArtWalk: A Visual Journey of Diversity, Culture, Equity." Tempe's art displays were provided by students and were displayed in various locations throughout the City. The event also elevated businesses owned by BIPOC individuals. **Council Priority 3. Tempe City Code Chapter 2, Article V, Division 6, Section 2-230 (1), (3) and (4).**
- In February, the HRC received a presentation by Black Lives Matter ("BLM"). BLM submitted an updated proposal that requests the support of the HRC in addressing issues of police violence and community engagement. BLM also advised that it was seeking a grant from the Vitalyst Health Foundation to support its work with other local nonprofits as a collective entity called, the Community Reinvestment Roundtable. The HRC reinforced its commitment to hearing the outcomes of the Community Reinvestment Roundtable work and assisting where possible to engage the community through partnership with the Public Safety Task Force Implementation Committee and otherwise. **Council Priorities 1 and 2. Tempe City Code Chapter 2, Article V, Division 6, Section 2-230 (1), (2), (3) and (4).**
- In March, the HRC heard presentations from Parks and Recreation on the new Master Plan. The Commission inquired about equity deficits in the community as well as equity in programming. The Commission offered to send any recommendations directly to the Community Services department and to support any public forums. The HRC also heard a presentation from representatives of Police Department School Resource Officer division. The HRC inquired

about the community's view of officers in the schools as well as the effectiveness of SROs in schools. Finally, the HRC heard a presentation from Care 7 and inquired into how Care 7 provided for community members not currently engaged. The HRC offered to host a forum for the public to gather opinions about youth and public safety, including issuing a survey to hear about what issues people are currently experiencing with youth and public safety. **Council Priorities 1, 2, 3 and 4. Tempe City Code Chapter 2, Article V, Division 6, Section 2-230 (1), (2), (3) and (4).**

Additionally, it presented the \$1,000 inaugural scholarship, sponsored by Chicanos Por La Causa, at the 8th Annual State of the Neighborhoods and Awards. **Council Priority 3. Tempe City Code Chapter 2, Article V, Division 6, Section 2-230 (1), (3) and (4).**
- In September, the HRC created a new reporting template for organizations and city departments to utilize when presenting to the Commission. The purpose of the template is to help narrow the scope of presentations and align presentations to the Commission's duty to advise Mayor and Council on specific topics. The reporting template was deployed for December presentations. **Council Priorities 1, 2, 3, 4, and 5. Tempe City Code Chapter 2, Article V, Division 6, Section 2-230 (1), (2), (3), and (4).**
- In September, the HRC also decided to create a Diversity Library in partnership with the Tempe Public Library. Tempe Adaptive Streets Implementation Design Guide

Background

The City of Tempe is pursuing the development of an Adaptive Streets Implementation Design Guide to identify strategies that allow for flexibility and adjustments, and ensure safe movements of all users, within the public rights of way.

Initiated as an 'open streets' concept to identify rapid alternative right of way solutions to social distancing, the original project was specifically addressing challenges of the COVID-19 pandemic in 2020. The project has evolved to become

more inclusive, supporting City-identified context-specific strategies and design features that respond to opportunities and needs in the right of way. This includes providing additional space for active transportation users (pedestrians, bicyclists, people accessing transit, micro-mobility users), near-term and low-cost improvements, and other approaches.

The Adaptive Streets Implementation Design Guide will complement and be coordinated with the variety of recent and ongoing City efforts and projects that relate to transportation mobility, livability, and placemaking in the City. This includes supporting and contributing to the City's initiatives around Vision Zero, Age Friendly City, and the Climate Action Plan. Staff will coordinate with other City projects that are currently ongoing including, but not limited to, Traffic Calming, Mobility Hubs, Innovation Hubs, and the Transportation Demand

Management/Transportation Management Associations (TDM/TMA) projects.

Fiscal Impact

The total cost of the project is \$95,000. Tempe is required as part of the Maricopa Association of Governments (MAG) Design Assistance Grant to pay 5.7% (in local funding) of the total cost of the project. The 5.7% match is \$5,415 of the \$95,000 project cost.

Sufficient budget for Tempe's portion of the project has been appropriated in Transit Fund cost center 3923.

Timeline/Next Steps

- January 4, 2022 Transportation Commission
- January 10-11 Sustainability and Resilience, Neighborhood Advisory, and Development Review Commissions
- January 19 Public Outreach Meeting (WebEx)
- January 29 Transportation Open House (Tempe Public Library, SE Parking Lot)

Tempe Transit Shelter Design Update

Background

Tempe is working with TY Lin, a local consultant team, guided by a Steering Committee and a public meeting process, to develop four new transit shelter designs to encourage increased ridership by improving the waiting environment. The final designs will provide a new iconic Tempe identity for the transit system.

There are currently 777 bus stops citywide in Tempe. There are 467 (60%) stops without shelters, and 310 (40%) with existing shelters. The new designs provide options for varying site conditions, allowing placement at bus stops with limited right of way.

Extensive public outreach (over 400 comments and survey responses) identified and prioritized key features. Improving shade coverage and increasing seating were at the top of the list. In these designs we are meeting the needs of more transit riders by serving restricted sites with a smaller footprint shelter, at lesser cost than our current shelters.

Sustainability

Sustainable features include: solar power, consideration for local materials and fabrication, modular design, interchangeable parts for inventory control and reuse, durability, flexibility, recyclability, ease of assembly, long life, and life cycle analysis.

Vertical Panels and Louvers Amplify Larger Overhead Canopies to Increase Shade and Cooling

Additionally, the City is collaborating with ASU (David Sailor and Ariane Middel) and 3M Corporation in testing a new proprietary radiative film product on 3 existing shelters.

The goal is to reduce the temperature under the canopy while extending the life of the solar panels. A new 30-minute video, to be published by Voice of America, provides a good description of the heat study of the shelters in Tempe as well as a cool street application in Phoenix; it can be seen at <https://vimeo.com/659065171>

Fabrication

In September, the team began working with a local fabricator, Talis Corporation, to fabricate three of the four shelter designs (micro, small, and medium). This collaborative process allowed for refinement of structural details in order to deliver a cost-effective shelter.

Transportation Open House

Staff will be holding an outdoor open house for the public on January 29, 2022 from 9:00a – 11:00a. The three completed prototypes will be installed and available for viewing and comments for one month. In addition, staff will be showcasing the following projects:

- Mobility Hubs, Transportation Demand Management, and TMAs
- Adaptable Streets Design Implementation Guide
- Climate Action Plan
- Broadway Curve Project
- Culdesac (Tempe's first car-free neighborhood)

The Tempe FanCon event will also be happening on the north side of the Library, from 10:00a – 4:00p and the team is hoping for some synergy between the events.

Construction on 5th Street and Myrtle Avenue (in front of City Hall and Police Headquarters) to Begin on January 24th

Beginning January 24th, expect to see construction activity on 5th Street and Myrtle Avenue in front of City Hall and the Police Headquarters building (see map below). Fifth Street will have traffic restrictions but will remain open to eastbound and westbound traffic for the duration of the project which has an anticipated completion date of March 27th. Myrtle, north of 5th, will be severely impacted, with access to the Police/Courts parking garage requiring a detour through the north Tempe Mission Palms parking lot. The project team is actively engaged in outreach with all impacted properties.

This project replaces two existing HVAC chiller lines that have reached the end of their service life (photos below show rust collected from the existing lines). These lines provide all the cooling and heating to multiple city-owned buildings in the downtown area, including Main PD/Court building, IT server rooms at Main PD, TPAC, City Hall, the 525 building, and Illegal Pete's.

In addition to providing a comfortable working environment for those in the buildings, these chiller lines serve a critical

Rust Collected from the Existing Steel Chiller Lines

function for our IT areas in these facilities. These IT areas rely on our chiller lines to provide extremely cool temperatures to keep the server equipment at its optimal working temperatures. Knowing how important these services are, our Building Maintenance team is being proactive in addressing the piping concerns prior to any critical failures.

Heating and Cooling to the above-mentioned buildings should **NOT** be impacted during construction. Staff will schedule the "switch over" (from old to new) to take place at night or on the weekend to minimize the impact to City services.
